| Tissue Specificity        | Ubiquitously expressed with higher expression found in heart and placenta.                                                                                                                                                                                                                                                                                                                                                      |
| Function                  | function:Acts as a sequence-specific transcriptional repressor in association with BCL6. May function in a narrow stage or be related to some events in the early B-cell development.,similarity:Contains 1 BTB (POZ) domain.,similarity:Contains 5 C2H2-type zinc fingers.,subunit:Associates with BCL6 through the BTB domain.,tissue specificity:Ubiquitously expressed with higher expression found in heart and placenta., |
| Background                | function:Acts as a sequence-specific transcriptional repressor in association with BCL6. May function in a narrow stage or be related to some events in the early B-cell development.,similarity:Contains 1 BTB (POZ) domain.,similarity:Contains 5 C2H2-type zinc fingers.,subunit:Associates with BCL6 through the BTB domain.,tissue specificity:Ubiquitously expressed with higher expression found in heart and placenta., |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                                                                                                                                                                                                                                                                            |
|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                 |
