

GPR6 Polyclonal Antibody

Catalog No	YP-Ab-07384
Isotype	IgG
Reactivity	Human;Mouse;Rat
Applications	WB;ELISA
Gene Name	GPR6
Protein Name	G-protein coupled receptor 6 (Sphingosine 1-phosphate receptor GPR6)
Immunogen	Synthesized peptide derived from human protein . at AA range: 290-370
Specificity	GPR6 Polyclonal Antibody detects endogenous levels of protein.
Formulation	Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
Source	Polyclonal, Rabbit,IgG
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000 ELISA 1:5000-20000
Concentration	1 mg/ml
Purity	≥90%
· unity	
Storage Stability	-20°C/1 year
Storage Stability	
Storage Stability Synonyms	-20°C/1 year
Storage Stability Synonyms Observed Band	-20°C/1 year 39kD Cell membrane ; Multi-pass membrane protein . Detected in the intracellular compartments. It is currently unclear whether this is a cell surface or intracellular
Storage Stability Synonyms Observed Band Cell Pathway	-20°C/1 year 39kD Cell membrane ; Multi-pass membrane protein . Detected in the intracellular compartments. It is currently unclear whether this is a cell surface or intracellular receptor.
Storage Stability Synonyms Observed Band Cell Pathway Tissue Specificity	-20°C/1 year 39kD Cell membrane; Multi-pass membrane protein. Detected in the intracellular compartments. It is currently unclear whether this is a cell surface or intracellular receptor. Brain, function:Receptor for the lysosphingolipid sphingosine 1-phosphate (S1P). S1P is a bioactive lysophospholipid that elicits diverse physiological effect on most types of cells and tissues. This receptor mediates its action by association with G proteins that activate a phosphatidylinositol-calcium second messenger
