

## OR4S2 Polyclonal Antibody

Catalog No         YP-Ab-07491           Isotype         IgG           Reactivity         Human;Rat;Mouse;           Applications         WB;ELISA           Gene Name         OR4S2 OR4S2P           Protein Name         Olfactory receptor 4S2 (Olfactory receptor OR11-137)           Immunogen         Synthesized peptide derived from human protein . at AA range: 170-250           Specificity         OR4S2 Polyclonal Antibody detects endogenous levels of protein.           Formulation         Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.           Source         Polyclonal, Rabbit, IgG           Purification         The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         WB 1:500-2000 ELISA 1:5000-2000           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         Observed Band         34kD           Cell Pathway         Cell membrane; Multi-pass membrane protein.           Tissue Specificity         Epithelium,           Function         function:Odorant receptor .;similarity:Belongs to the G-protein coupled receptor 1 tamily.           Background         Olfactory receptor family 4 subfamily S member 2(OR4S2) Homo sapiens Olfactory re		
Reactivity Human;Rat;Mouse;  Applications WB;ELISA  Gene Name OR4S2 OR4S2P  Protein Name Olfactory receptor 4S2 (Olfactory receptor OR11-137)  Immunogen Synthesized peptide derived from human protein . at AA range: 170-250  Specificity OR4S2 Polyclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Polyclonal, Rabbit,IgG  Purlification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000 ELISA 1:5000-20000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms  Observed Band 34kD  Cell Pathway Cell membrane; Multi-pass membrane protein.  Tissue Specificity Epithelium,  Function function:Odorant receptor .,similarity:Belongs to the G-protein coupled receptor 1 family.  Background Olfactory receptor family 4 subfamily S member 2(OR4S2) Homo sapiens olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptors genes and proteins and are responsible for the recognition and G protein-mediated the genome. The nomenclature assigned to the olfactory receptor genes and proteins.	Catalog No	YP-Ab-07491
Applications WB;ELISA  Gene Name OR4S2 OR4S2P  Protein Name Olfactory receptor 4S2 (Olfactory receptor OR11-137)  Immunogen Synthesized peptide derived from human protein . at AA range: 170-250  Specificity OR4S2 Polyclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Polyclonal, Rabbit.lgG  Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000 ELISA 1:5000-20000  Concentration 1 mg/ml  Purity 290%  Storage Stability -20°C/1 year  Synonyms  Observed Band 34kD  Cell Pathway Cell membrane; Multi-pass membrane protein.  Tissue Specificity Epithelium,  Function function:Odorant receptor .,similarity:Belongs to the G-protein coupled receptor 1 family.,  Olfactory receptor family 4 subfamily S member 2(OR4S2) Homo sapiens Olfactory receptor receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor semily is the largest in the genome. The nomenclature assigned to the olfactory receptor family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by	Isotype	IgG
Gene Name OR4S2 OR4S2P  Protein Name Olfactory receptor 4S2 (Olfactory receptor OR11-137)  Immunogen Synthesized peptide derived from human protein . at AA range: 170-250  Specificity OR4S2 Polyclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
