

OR7AH Polyclonal Antibody

Catalog No	YP-Ab-07628
Isotype	IgG
Reactivity	Human;Rat;Mouse;
Applications	WB;ELISA
Gene Name	OR7A17
Protein Name	Olfactory receptor 7A17
Immunogen	Synthesized peptide derived from human protein . at AA range: 30-110
Specificity	OR7AH Polyclonal Antibody detects endogenous levels of protein.
Formulation	Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
Source	Polyclonal, Rabbit,IgG
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000 ELISA 1:5000-20000
Concentration	1 mg/ml
Purity	≥90%
04 04 1 774	
Storage Stability	-20°C/1 year
Storage Stability Synonyms	-20°C/1 year
	-20°C/1 year 33kD
Synonyms	•
Synonyms Observed Band	33kD
Synonyms Observed Band Cell Pathway	33kD Cell membrane; Multi-pass membrane protein.
Synonyms Observed Band Cell Pathway Tissue Specificity	Cell membrane; Multi-pass membrane protein. Placenta,Sperm, function:Odorant receptor .,similarity:Belongs to the G-protein coupled receptor 1 family., Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by
