IGHA1 rabbit pAb

Isotype IgG Reactivity Human;Rat;Mouse; Applications WB Gene Name IGHA1 Protein Name IGHA1 Immunogen Synthesized peptide derived from human IGHA1 AA range: 118-168 Specificity This antibody detects endogenous levels of IGHA1 at Human Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.35% sodium azide. Source Polyclonal, Rabbit.IgG Purification The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen. Dilution WB 1:500-2000 Concentration 1 mg/ml Purity<<≥90% 20°C/1 year Storage Stability -20°C/1 year Synonyms Ig alpha-1 chain C region Observed Band 38kD Cell Pathway Secreted. Cell membrane . Tissue Specificity Bile,Colon,Mammary gland,Stomach mucosa, Function disease: A chromosomal aberration involving (CHA1 is found in multiple myeloma not the pater inmune debt speneme, Pincharis, an order of pater against local inflection and by secretions, it is the major reacter, by reactions, and the pater inmune debt spenemeration involving of the pater indes, an order of pater against
