

# SARS-COV-2 Spike Protein Rabbit pAb

|                                  |   |
|----------------------------------|---|
| <b>Catalog No</b>                | YP-Ab-10309   |
| <b>Isotype</b>                   | IgG   |
| <b>Reactivity</b>                | Human virus   |
| <b>Applications</b>              | WB  |
| <b>Gene Name</b>                 | SARS-COV-2 Spike Protein  |
| <b>Protein Name</b>              | SARS-COV-2 Spike Protein  |
| <b>Immunogen</b>                 | Synthesized peptide derived from SARS-COV-2 Spike Protein   |
| <b>Specificity</b>               | This antibody detects endogenous levels of SARS-COV-2 Spike Protein   |
| <b>Formulation</b>               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.16% sodium azide.   |
| <b>Source</b>                    | Polyclonal, Rabbit,IgG  |
| <b>Purification</b>              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.   |
| <b>Dilution</b>                  | WB 1:1000-2000  |
| <b>Concentration</b>             | 1 mg/ml   |
| <b>Purity</b>                    | ≥90%  |
| <b>Storage Stability</b>         | -20°C/1 year  |
| <b>Synonyms</b>                  | YM33056   |
| <b>Observed Band</b>             |   |
| <b>Cell Pathway</b>              |   |
| <b>Tissue Specificity</b>        |   |
| <b>Function</b>                  |   |
| <b>Background</b>                | The spike (S) glycoprotein of coronaviruses is known to be essential in the binding of the virus to the host cell at the advent of the infection process. Most notable is severe acute respiratory syndrome (SARS). The severe acute respiratory syndrome-coronavirus (SARS-CoV) spike (S) glycoprotein alone can mediate the membrane fusion required for virus entry and cell fusion. It is also a major immunogen and a target for entry inhibitors. It's been reported that 2019-nCoV can infect the human respiratory epithelial cells through interaction with the human ACE2 receptor. |
| <b>matters needing attention</b> | Avoid repeated freezing and thawing!  |

**Usage suggestions**

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
