## Cleaved-Integrin $\alpha$ 5 LC (E895) Polyclonal Antibody

Catalog NoYP-Ab-16805IsotypeIgGReactivityHuman;Rat;Mouse;ApplicationsWB;ELISAGene NameITGA5Protein NameIntegrin alpha-5ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. AA range:876-925SpecificityCleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous lew fragment of activated Integrin α5 LC protein resulting from cleavage adjace E895.FormulationLiquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.	
ReactivityHuman;Rat;Mouse;ApplicationsWB;ELISAGene NameITGA5Protein NameIntegrin alpha-5ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. AA range:876-925SpecificityCleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous leve Fragment of activated Integrin α5 LC protein resulting from cleavage adjace	
ApplicationsWB;ELISAGene NameITGA5Protein NameIntegrin alpha-5ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. Gene NameITGA5Protein NameIntegrin alpha-5ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. AA range:876-925SpecificityCleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous leve fragment of activated Integrin α5 LC protein resulting from cleavage adjace E895.	
Protein NameIntegrin alpha-5ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. AA range:876-925SpecificityCleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous lev fragment of activated Integrin α5 LC protein resulting from cleavage adjace E895.	
ImmunogenThe antiserum was produced against synthesized peptide derived from hum ITGA5. AA range:876-925SpecificityCleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous lever fragment of activated Integrin α5 LC protein resulting from cleavage adjace E895.	
Specificity     Cleaved-Integrin α5 LC (E895) Polyclonal Antibody detects endogenous lev fragment of activated Integrin α5 LC protein resulting from cleavage adjace E895.	
<b>Formulation</b> Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.	rels of nt to
Source Polyclonal, Rabbit,IgG	
PurificationThe antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.	
Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.	
Concentration 1 mg/ml	
Purity ≥90%	
Storage Stability -20°C/1 year	
SynonymsITGA5; FNRA; Integrin alpha-5; CD49 antigen-like family member E; Fibron receptor subunit alpha; Integrin alpha-F; VLA-5; CD antigen CD49e	ectin
Observed Band18kD	
Cell Pathway Membrane; Single-pass type I membrane protein. Cell junction, focal adhes Cell surface .	on .
Tissue Specificity Liver, Placenta,	
Function function:Integrin alpha-5/beta-1 is a receptor for fibronectin and fibrinogen. I recognizes the sequence R-G-D in its ligands. In case of HIV-1 infection, the interaction with extracellular viral Tat protein seems to enhance angiogenes Kaposi's sarcoma lesions.,similarity:Belongs to the integrin alpha chain family.,similarity:Contains 7 FG-GAP repeats.,subunit:Heterodimer of an alp and a beta subunit. The alpha subunit is composed of an heavy and a light of linked by a disulfide bond. Alpha-5 associates with beta-1. Interacts with HP and NISCH. Interacts with HIV-1 Tat. Interacts with RAB21.,	e is in ha chain
<b>Background</b> integrin subunit alpha 5(ITGA5) Homo sapiens The product of this gene belongs to the integrin alpha chain family. Integrins are heterodimeric integra membrane proteins composed of an alpha subunit and a beta subunit that function in cell surface adhesion and signaling. The encoded preproprotein i

	proteolytically processed to generate light and heavy chains that comprise the alpha 5 subunit. This subunit associates with the beta 1 subunit to form a fibronectin receptor. This integrin may promote tumor invasion, and higher expression of this gene may be correlated with shorter survival time in lung cancer patients. Note that the integrin alpha 5 and integrin alpha V subunits are encoded by distinct genes. [provided by RefSeq, Oct 2015],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
